International experience of carbon neutrality and prospects of key technologies: Lessons for China

Zheng-Meng Hou, Ying Xiong*, Jia-Shun Luo**, Yan-Li Fang, Muhammad Haris, Qian-Jun Chen, Ye Yue, Lin Wu, Qi-Chen Wang, Liang-Chao Huang, Yi-Lin Guo, Ya-Chen Xie

- An international perspective of the challenges and opportunities of carbon neutrality in China.
- Status and prospects of the key technologies for low-carbon, near-zero carbon, and negative carbon emissions.
- A novel concept of the future Clean Energy Systems based on Smart Sector Coupling (ENSYSO).
