

THE 17th INTERNATIONAL SYMPOSIUM ON EAST ASIAN RESOURCES RECYCLING TECHNOLOGY

1-4, November 2024·Changsha, China

<http://earth2024.china-mcc.com/>

organizer

The Nonferrous Metal Society of China
Central South University

co-organizer

The Mining and Materials Processing Institute of Japan
The Korean Institute of Resources Recycling
The Formosa Association of Resource Recycling
Engineering and Energy Research Institute of Chulalongkorn University, Thailand

Execution organizer

Chinese National Engineering Research Center for Control & Treatment of Heavy Metal Pollution
School of Metallurgy and Environment, Central South University
State Key Laboratory of Advanced Metallurgy for Nonferrous Metals.
Beifang Zhongye (Beijing) Engineering Consulting Co., Ltd.

目录

CONTENTS

- Constructing Heterointerfaces in Dual-phase High-entropy Oxides to Boost O₂ Activation and SO₂ Resistance for Mercury Removal in Flue Gas
.....Chaofang Li, Kaisong Xiang, Jun Wu, Fenghua Shen, Weichun Yang, Hui Liu (30)
- Mechanochemically enhanced selective recovery of insoluble manganese from electrolytic manganese residue
.....Hongrui Xiang, Feiping Zhao, Meiqing Shi, Qingwei Wang, Liyuan Chai (31)
- A Green and Energy-Supply-Free Artificial Plant for Efficient and Non-Selective Enrichment of Heavy Metal Ions Out of Soil
.....Congcan Shi, Yike Li, Zhenhua Wu, Aotian Chen, ... (32)
- High-value regeneration of sintered Nd-Fe-B sludge: purification-remixed sintering
..... Lichao Yu, Qingmei Lu, Xinyuan Yang, Pengwei Li, Weiqiang Liu, Ming Yue (33)
- Alumina extraction and Fe-Si alloys production from coal fly ash by employing the vacuum carbothermic reduction technology
.....Wenzhou Yu, Tao Xiong, Zitao Rao, Peng Wei, Haitao Yuan (34)
- Tuning the coordination environment of sulfur on carbon surface via doping with iron for high-capacity gaseous elemental mercury capture
.....Junyuan Li, Kaisong Xiang, Jun Wu, Yu Zhou, Fenghua Shen, Hui Liu (35)
- Nafion-Mediated Proton Transfer Facilitates the Electroreduction of SO₂ to H₂S
..... Hui Liu, Zhujiang Wang, Hao Chen, Jun Wu, ... (36)
- Eco-friendly Mg Metal Production using Sludge Cake from a Mg-based FGD Process
..... Hyeong-Jun Jeoung, Hyunjin Na, Tae-Hyuk Lee, Kyung-Woo Yi, and Jungshin Kang (37)
- Investigation of the direct production of lithium sulfide from lithium hydroxide using hydrogen sulfide gas generated from iron sulfide
.....Sung-Hun Park, Bummo Choi, Youngju Song, Hyeong-Jun Jeoung, Jungshin Kang (38)
- Separation Behavior of Active Materials from LFP Black Mass via Flotation
.....Hyojeong Nam, Jeongwoo Kim, Gilsang Hong, Heewon Kang, Junseop Lee, Hyunjung Kim (39)
- Characteristics of cement raw mix and clinker used slags as non-carbonated material
.....Young Jun Lee, Sung Kwan Seo, Yong Sik Chu (40)
- The effect of polyvinyl chloride additives on zinc and lead volatilization using chorine containing plastics
..... Yusuf Olalekan Zubair, Yuji Takasaki, Yutaro Takaya, Toshiya Saito, ... (41)
- Research and practice of recycling and utilization of bulk industrial solid waste in road engineering
..... Yan Shen (42)
- Mechanism investigation of boron removal with coprecipitated Mg-Al-layered double hydroxide
.....Yafan Wang, Yusuf Olalekan Zubair, Mauricio Cordova-Udaeta, Chiharu Tokoro (43)
- The leachabilities of boron and fluorine from incineration ash under co-existing carbonate ions
..... Yusuke Furukori, Hisanori Iwai, Masaru Tomoguchi, Kenichi Yamano, Chiharu Tokoro (44)
- Investigation of high-purity lithium sulfide production from lithium sulfate through carbothermic reduction
..... Youngju Song, Hae-Ram Jo, Sung-Hun Park, Hyeong-Jun Jeoung, Jungshin Kang (45)
- Study on preparation of grouting reinforcement materials by multi-solid waste co-mineralization and its influence mechanism
..... Huiping Song, Dedan Duan, Fang Wei, Zhengjun Feng, Huaigang Cheng, Fangqin Cheng (46)

- Demand Post
- Scientific Research Post
- Technology Roadshow
- Conference and Exhibition
- Cutting-edge updates
- Video Sharing
- Service of Societies
- Project Application
