

HY-IEE INTERNATIONAL MINI SEMINAR

TOPIC Net-Zero

TIME : 2PM, Wednesday, July 26

LOCATION : Engineering Building II #301

SEMINAR TALKS

① Title : Interesting Progress on Key Control Parameters in Gas Flow through Porous Media

• Speaker : Qingquan Liu, Prof

(Faculty of School of Safety Engineering, China University of Mining and Technology)

② Title : How efficient coal mine methane control can benefit carbon-neutral target: Evidence from China

• Speaker : Liang Wang, Prof

(Faculty of School of Safety Engineering, China University of Mining and Technology)

Gas Micropore Filling and New Pore Classification Method in Coal

Speaker: Professor Yuanping Cheng / Professor Liang Wang

China University of Mining and Technology
July 2023

Gas Micropore Filling and New Pore Classification Method in Coal

Speaker: Professor Yuanping Cheng / Professor Liang Wang
